PROFILE

Motivated IT professional with 6 months experience in Junior Automation Specialist and 1 year in IT Technician. I understand how to develop full websites and apps using Python, Java with Spring Boot, React, HTML, CSS and JavaScript. I also have exposure to automation tools such as Workato. I have certificates from Microsoft Azure – AZ-900 and AZ-204, I know how to set up systems in the cloud. I am eager to apply my expertise in coding, automation, and cloud work to help a company develop, and grow learning more and becoming better.
